

The Global Food System

Food System Map

Version 1.2 March, 2009

The diagram is a Venn diagram with three overlapping circles. The top circle is labeled 'Planning, Programming, Budgeting & Execution (PPBE)'. The bottom-left circle is labeled 'Joint Capabilities Integration & Development (JCIDS)'. The bottom-right circle is labeled 'Defense Acquisition System (DAS)'. Arrows point from each of the three circles towards a central point where they all overlap, indicating a convergence or integration of these processes.

This chart is a classroom tool for Delaware Department University students. It provides a self-paced illustration of the interrelationships among the three major domains subject operations used in drawing, producing, and using a system for national education. Delaware Department is a complex process, with many more activities than shown here, and many associated programs that cannot be properly displayed in a two-dimensional chart. Suggestive information is given below the chart. For more information see the Department's Teaching & Learning Knowledge Training System (<http://www.doe.edu>).
